

# SEAT HARNESS

## MATERIALS

## HOW TO FABRICATE

- A Jean fabric
- B Expandible fabric
- C Border fabric
- D Poliflex/foam
- E Lariat (1")
- F Buckles
- G Thread
- H Barrette
- I Velcro (2")

- 1 Cut one piece of jean fabric and one piece of expandable fabric (54x32cm) and then give it the shape according to the dimensions of the image.
- 2 Cut a piece of foam, reducing the dimensions of the image by 2cm on each side.
- 3 Cut 4 pieces of lariat 50cm long and 4 pieces of lariat 10cm long, to go with the buckles.
- 4 Cut 2 pieces of hard velcro (10cm) and 2 pieces of soft velcro (20cm). Round the corners of the soft velcro pieces.
- 5 Sew the lariat pieces and velcro pieces to the jean fabric (see image).
- 6 Insert the foam piece in the middle of the jean and expandable fabrics and sew the borders.
- 7 Add the border fabric.
- 8 Add the barrettes to the longer pieces of lariat and tie them to the gait trainer upper "C".
- 8 These dimensions are for a medium size seat harness, for small and large seat harnesses reduce/add to the original dimensions according to the child.
